

# DocuPet

## DIY Emergency Kit

### The Basics:

- Water
- Food
- Medications
- Vaccination papers
- Photocopied registration information (ex: proof of ownership or adoption records)
- Pet licensing information and ID tag
- Microchip information
- Important phone numbers (vet, emergency contact)
- Collar
- Leash or pet carrier
- Kitty litter or waste bags
- Whistle

### First-aid Supplies:

- Self-cling bandage (bandage that stretches and sticks to itself but not to fur)
- Absorbent gauze pads, cotton balls or swabs
- Adhesive tape
- Scissors (with blunt ends)
- Antiseptic wipes
- Sterile saline solution
- Blanket
- Hydrogen peroxide (to induce vomiting in the event of poisoning, as directed by a vet)
- Ice pack
- Disposable gloves
- Thermometer (your pet's temperature should not rise above 103°F or fall below 100°F)
- Sterile non-stick gauze pads for bandages
- Tweezers
- Tick remover

### Other Helpful Things That to Have:

- Some toys/blankets that make your pet feel safe and secure
- Flea, Tick and mosquito treatment

- A supply of heartworm medication
- Ear and eye cleaning solution
- A pillowcase or cloth bag to confine your cat for treatment
- Benadryl – If your pet has allergies your vet can recommend an appropriate dosage to help with inflammation
- Glucose paste or corn syrup if you have a diabetic pet
- Nail clippers
- Antibiotic ointment like Polysporin
- Flashlight
- Rubbing alcohol
- Splints and tongue depressors
- Styptic powder or pencil to help stop minor bleeds
- Towels, paper towels or training pads
